Man In Amorrow With Tomorrow Written All

It's now in town and you can see it -

The new Nash "600" - the car that! shows you today what tomorrow's ears must have. And everything you see you're going to like-

* Here is the first big car that gives you 25 to 30 miles on a gallon of gas, at moderate highway speeds - 500 to 600 miles on one filling of the tank.

* A car so big that the front seat's nearly five feet wide, and the back compartment can be made into a big double bed at night.

A car that's built like a B-29 Asselage—one single unit of welded

steel! No split body-and-frame, no separate parts to squeak and rattle. Made stronger, but hundreds of pounds lighter.

* A car that sweeps over bumps as if they didn't exist-with deep, soft coil-springing on all four wheels.

* A car with a built-in exclusive Weather Eye Conditioned Air System that lets you shut your windows to dust and drafts the year 'round-and drive without a coat in the bitterest cold weather, with frost-free windows and windshield.

Above all, a brand new standard of performance! Handling ease-bril-

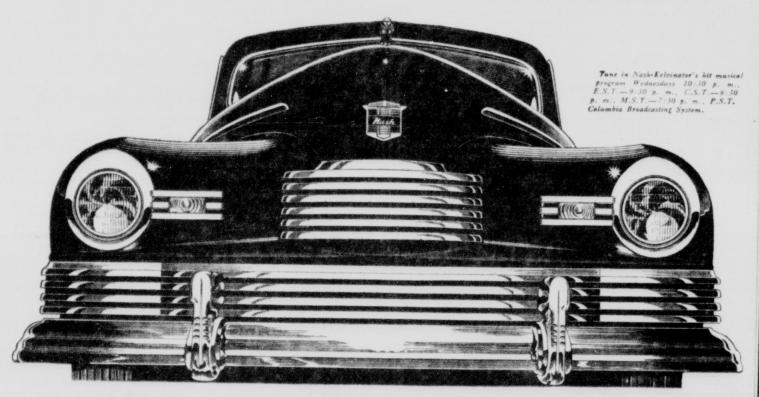

liant pickup - that will thrill you as no automobile ever has before!

And with all its amazing advancements -with all of its clean, sparkling beauty -this Nash sells in the low-price field.

See how little it costs to own the most modern car on the road. See how much you'll be ahead with Nash.

Your Nash dealer shown below now has the Nash "600" and also the new 1946 Ambassador, master of the medium-price field. See the mosttalked-about car of a decade!

Differ On Ways Of Doing Things

By MARK SULLIVAN

One of the disagreements between President Truman and Congress is, superficially, a mere difference of judgment about the time a certain thing should be done Congress wants it done within 100 days, and so provided in a bill. Mr. Truman wants to wait a year and a half, and so refused to sign the bill. But, as often happens, the narrow specific issue is entangled in a mesh of other considerations. It is these, mainly, that cause the disagreement.

Before the war, fifty-one states and territories operated employment services. Their central function find himself in a position of leaders.

Associated with this were in his message says: other functions, especially the ad-ministration of insurance benefits or unemployed workers.
